Can one driver really make a difference? Yes!

Every Pace Car helps slow traffic, creating an effect that can soon be felt town-wide. The Pace Car magnet communicates your intentions to other drivers as you model courtesy and safe driving. As more people consider walking and biking to be good options, traffic is reduced, and our streets become safer for everyone. Pledge to make a difference today!

Pedestrian safety is a **shared responsibility** among pedestrians, drivers, and all road users. All parties must follow rules, stay alert, and take steps to prevent accidents.
