This notice was included in the 2024 Consumer Confidence Report issued on June 30, 2025.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER **Monitoring Requirements Not Met for Nutley Water Department**

In November 2024, we became aware that our system failed to collect the correct number of drinking water samples. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the 1/1/2024 - 06/30/2024 compliance period, we did not complete all monitoring or testing at the Passaic Valley Water Commission's distribution system sampling point (DSWQ1) as required in our Water Quality Parameters sampling plan for our and therefore cannot be sure of the quality of your drinking water during that time.

What should I do?

There is nothing you need to do at this time. You may continue to drink the water. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

What is being done?

We are working with Passaic Valley Water Commission to install a sampling point at the interconnection where PVWC's water comes into the Nutley system so we can be in compliance.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
