This notice was included in the 2025 Consumer Confidence Report issued on June 30, 2026.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER **Monitoring Requirements Not Met for Nutley Water Department**

We are aware that our system failed to collect the correct number of drinking water samples. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we are doing to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the January 1, 2025 through December 31, 2025 compliance period, we did not complete all monitoring or testing:

- **Water Quality Parameter (WQP) Monitoring** at the Passaic Valley Water Commission distribution system sampling point (DSWQ1), as required by our approved sampling plan.
- **Iron and Manganese Monitoring** – One annual sample was required but was not collected.

What should I do?

There is nothing you need to do at this time. You may continue to drink the water. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

What is being done?

This monitoring violation is related to an ongoing issue first identified in 2024. The Nutley Water Department is working with the Passaic Valley Water Commission (PVWC) to establish a permanent sampling location at the interconnection where PVWC water enters the Nutley distribution system. This will allow the required monitoring to be completed in accordance with regulatory requirements.

In addition, the required Iron and Manganese sample will be collected and analyzed during 2026.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
